THE STORM FRONT

You get to meet a lot of interesting characters working in comics. The obvious ones are seen on the printed page every month and can leap whole issues in a single bound. Then there are the ones creating the comics day in and day out, who are no less colorful. Joel Gomez sits next to me, here in the studio, and his penciling skills take another step forward next month from WETWORKS to THE LOST BOYS: REIGN OF FROGS, written and instilled with great fear by Hans (MNEMOVORE) Rodionoff. This four-part miniseries catches up with Edgar and Alan—the vampire-slaying Frog Brothers from The Lost Boys—and brings you up to date before their upcoming summer film, *The Last Boys: The Tribe*.

I'm sure the Frog Brothers will finally get a kick out of displaying their own comic in their parents' store too.

There's a new character debuting from WildStorm named Casey Blue. She's just your average teenage girl, unwittingly programmed to be a part of Earth's last line of defense against a full-scale alien invasion. CASEY BLUE: BEYOND TOMORROW is a six-issue miniseries written and drawn by the human resistance team of B. Clay Moore and Carlo (GEN13) Barberi, respectively.

And while the idea of a young female protagonist may be familiar, Moore and Barberi promise to keep fans on the edge of their front row seats as Casey not only discovers what she can do, but also what's at stake for the whole human race.

You never know who you'll meet when you open up a comic, whether it's the Frog brothers fighting vampires or a teenage girl taking on an alien invasion. And I wouldn't have it any other way!
